

# PROJECT STATUS & CALENDAR

---

## January 2018

### DEVELOPMENT

- Project: CIP water tower improvements.  
Status: The pumps station building has been delivered and installed. The installation and connection of pumps and disinfection equipment is ongoing.
- Project: West end water main extension.  
Status: This project is complete.
- Project: Camp Kachina subdivision.  
Status: Most of the excavation of the roadways has been completed. The contractor will begin to install utility lines and roadway materials in the next 30-60 days.
- Project: Oakmont Park lease with the ACOE.  
Status: The Parks Master Plan has been submitted to the ACOE for review. The CORPS has asked for a new lease request which has been submitted. A request from the ACOE is asking for a development plan for the entire Park. A workshop will be held to discuss the development plan.
- Project: Stormwater improvements.  
Status: The Council has asked for a workshop on this item. With impending holidays, a workshop will be developed for after the New Year.

### UTILITIES & MARINA

- Project: Backflow prevention on water lines.  
Status: The City of Temple is requiring that we install backflow prevention valves or reduced pressure zone valve (RPZ valves) at each point where they deliver water to us. The current water tower project includes these valves. The water line by the public safety building does not have this type of valve and will need to be updated. Approval has been received from TxDOT to bore under FM 2483. BSP Engineers is currently designing the system upgrade for submittal and approval to the City of Temple. The project will be bid and the Council will be able to review and award the bid at a future Council meeting.

### ADMINISTRATION & FINANCE

- Project: 2015/2016 Audit.  
Status: Auditors have completed a preliminary report. A workshop will be held for presentation with adoption at the next regular Council meeting.
